RESOLUTIONS ON FIRST READING

House Resolution 41

Representative Schaibley introduced House Resolution 41:

A HOUSE RESOLUTION congratulates Saint Maria Goretti Catholic School as the 2019 National Blue Ribbon Awardee.

Whereas, Saint Maria Goretti Catholic School was recognized as a National Blue Ribbon School by the United States Department of Education in 2019;

Whereas, This award is based on a school's overall academic excellence and their progress in closing achievement gaps among student subgroups. This award can only be given to a school once every six years, and this is the second time the school has been granted the title of a Blue Ribbon School;

Whereas, The Blue Ribbon Award affirms the hard work of students, educators, families, and communities in creating safe and welcoming schools where students master challenging content; and

Whereas, Saint Maria Goretti Catholic School prides itself on providing individual attention to each student and hiring and training teachers who love their students and are willing to go the extra mile for them. The National Blue Ribbon School flag flying overhead is a widely recognized symbol of exemplary teaching and learning: Therefore,

Be it resolved by the House of Representatives of the General Assembly of the State of Indiana:

SECTION 1. That the Indiana House of Representatives recognizes and congratulates Saint Maria Goretti Catholic School as being the 2019 National Blue Ribbon Awardee.

SECTION 2. That the Principal Clerk of the House of Representatives shall transmit a copy of this resolution to Representative Donna Schaibley for distribution.

The resolution was read a first time and adopted by voice vote.

House Resolution 42

Representative Karickhoff introduced House Resolution 42:

A HOUSE RESOLUTION urging the Legislative Council to assign to an appropriate study committee the topic of the potential dangers of cyber hacking and ransomware attacks on state and local governments as well as the creation of a specialized Cyber-Technical Assistance Program at Purdue University to assist Indiana's local units of government with the implementation of cyber security measures.

Whereas, PEW Research Center states that more than half of Americans have experienced a breach of data, and close to half of Americans, 49%, are not confident in the federal government protecting their data;

Whereas, Systems that are in place to protect everyday government operations, the safety of the public, and emergency responses are all at risk of cyberattacks such as ransomware or phishing schemes;

Whereas, Ransomware is a type of software maliciously designed to obstruct access to computer systems from the users, until money has been paid to the hackers, many attacks start via phishing emails, in which an email that appears normal contains a corrupt file or link, and anyone using email is open to these attacks;

Whereas, Several local units of government throughout the nation have been affected by cyberattacks, leading Accelerate Indiana Municipalities (AIM), the Association of Indiana Counties (AIC), and the Indiana Association of County Commissioners (IACC) to jointly support the creation of a cyber technical assistance training program aimed at helping local government officials and employees through Purdue University; and

Whereas, Purdue University, a technology, engineering, and computer science leader with a land grant mission has proposed offering technical assistance to Indiana local governments through cybersecurity assessments, training, consulting, and reporting; Therefore,

*Be it resolved by the House of Representatives
of the General Assembly of the State of Indiana:*

SECTION 1. That the Indiana House of Representatives urges the Legislative Council to assign the topic of the potential dangers of cyber hacking, including ransomware in state and local governments as well as the creation of a specialized Cyber-Technical Assistance Program at Purdue University to assist Indiana's local units of government with the implementation of cybersecurity measures, to an appropriate study committee.

SECTION 2. That the Principal Clerk of the House of Representatives shall transmit copies of this resolution to Representative Karickhoff for distribution.

The resolution was read a first time and adopted by voice vote.

House Concurrent Resolution 46

Representative Davisson introduced House Concurrent Resolution 6:

A CONCURRENT RESOLUTION honoring Greg McCurdy on his selection as the 2019 Indiana Small and Rural Schools Teacher of the Year.

Whereas, Mr. Greg McCurdy has been named the 2019 Indiana Small and Rural Schools Teacher of the Year by the Indiana Small and Rural Schools Association and Indiana Farm Bureau;

Whereas, With 42 years of experience, Mr. McCurdy, a science teacher at Salem High School in the Salem Community Schools system in Southeastern Indiana, is a highly effective and veteran instructor;

Whereas, Salem Community Schools Superintendent Dr. Lynn Reed recognized Mr. McCurdy's talent for detail and planning skills that directly benefit his students and Salem Community Schools;

Whereas, Rural America is rooted in the premise of hard work, dedication, and can-do spirit;

Whereas, Mr. McCurdy is known as an educator who has high classroom expectations and instills in his students the value of a quality education and its impact on their lives; and

Whereas, While keeping students actively involved in their learning, Mr. McCurdy instills in each pupil the desire to work toward doing their very best, to show respect for one another, and to commit themselves to working toward graduation: Therefore,

*Be it resolved by the House of Representatives
of the General Assembly of the State of Indiana,
the Senate concurring:*

SECTION 1. That the Indiana General Assembly honors Mr. Greg McCurdy for being named the 2019 Indiana Small and Rural Schools Teacher of the Year.

SECTION 2. That the Principal Clerk of the House of Representatives shall transmit copies of this resolution to the office of State Representative Steve Davisson for distribution.

Whereas, Norwell Middle School students designed a virtual city using computer software, researched a citywide issue, and wrote an essay describing their findings and innovative solutions;

Whereas, The futuristic city of Yemoga was engineered using more than 5,000 bottle caps that Norwell Middle School students melted down to mold the buildings;
